

Service you can trust.

Protection for your patients and staff needn't cost the earth

Euroclean delivers affordable, comfortable, fluid repellent gowns straight to your Practice

Health & Safety Vs Cost & Hassle

As a dental professional, you will be very familiar with occupational health & protection issues, especially given the recent pandemic. Successful dental practices work hard to maintain the highest standards of safety – which includes having a ready supply of fluid repellent gowns. But managing your PPE and in-house laundry can be a real hassle - it consumes time, adds costs and eats up valuable storage space. Fortunately, there is another, better way with Euroclean.

Our hassle-free solution

Euroclean specialises in providing workwear laundry and rental services to the healthcare sector. Our reusable gown service will give your practice a cost-effective, reliable and sustainable supply of fluid repellent gowns, delivered regularly and on time. This means that you and your colleagues will continue to meet the most stringent protection standards and maintain a safe environment for your patients. Equally important, you will be free of the inconvenience and costs of disposable PPE, and/or managing an in-house laundry.

Superior quality gowns

Comfortable, lightweight and easy to wear, Euroclean's fluid repellent gowns are extremely popular with dental staff across Northern Ireland and they contribute to building a culture where safety is paramount. The gowns contain special carbon yarns that prevent static build-up and they are fully breathable. They are also recyclable at end of life.

How our service works

Clear quality and costs benefits to your dental business

Our professional dental laundry service makes good safety sense....and good business sense too:

- Your gowns are collected, then laundered to ISO 9001 and EN14065 standards
- We return them, fresh, clean and individually bagged
- You always hold adequate stock of clean gowns
- No excessive storage requirements on your premises
- Gowns are reusable, so no disposal charges to your practice
- No capital outlay, just reasonable, transparent pricing
- Comfortable and easy to use, your staff will love them

Your partner in dental care

Euroclean is a Northern Ireland company with a long and successful track record in providing workwear laundry and rental services to NI's healthcare sector. We work with a number of NHS Trusts, delivering scrubs and gowns to some of this region's best-known hospitals and private clinics.

We already provide our gown service to numerous dental practices throughout Northern Ireland and our PPE and workwear rental is used by leading pharmaceutical companies, food processors and manufacturing/technical industries.

All of these organisations trust us to deliver life-saving standards of care and cleanliness. We are confident that you can too.

"We are very happy with the quality of service we receive from Euroclean. They do a tremendous job for us and deliver our gowns promptly and efficiently, always responding to anything we need at a moment's notice."

Donna, Dental Practice Manager | **Derry/Londonderry**

"In our area of healthcare, there's no margin for error when it comes to standards of safety and clinical hygiene. The Euroclean team has consistently exceed our expectations in terms of the quality, reliability and value of their service. When you factor in the cost savings available through reduced stock holding and logistics, using their service becomes a no-brainer!"

Paul, NHS Trust Manager | **Belfast**

"Our Pharma operations demand a clean, safe environment and a vital part of this is ensuring that lab coats and uniforms are properly cleaned. Our relationship with Euroclean is an essential part of this procedure. We find them to be very rigorous in their standards and very reliable when it comes to delivering our workwear. I can thoroughly recommend Euroclean's laundry and rental services to anyone operating in a sterile environment."

James, Quality Control Manager Pharmaceutical company | **Craigavon**
